

KENTUCKY BLUEGRASS

TURF

Milagro

Kentucky Bluegrass

Miraculous establishment!

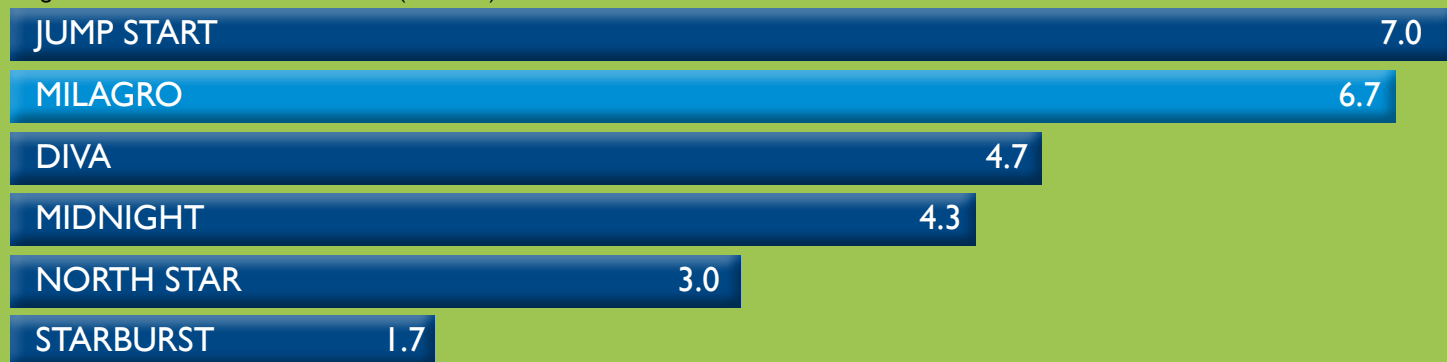

MILAGRO Kentucky Bluegrass is an ‘outside-the-box variety’. With its rapid establishment and ability to withstand adverse conditions, this variety will fit almost any need you might have. It has performed extremely well in the south alongside some very stiff competition. It was developed for tolerance to salt, lower inputs, and use in droughty conditions.

- Rapid establishment
- Rich green color
- Good drought tolerance
- Solid performer under stress
- Requires less inputs

PERFORMANCE DATA

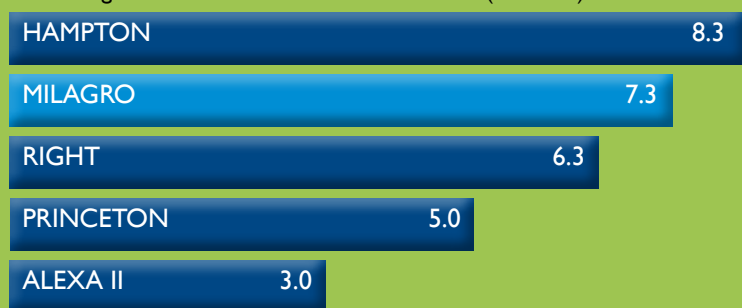

ESTABLISHMENT

2012 mean turf performance ratings for entries in a Kentucky bluegrass turf trial seeded fall of 2011 near Rolesville, NC and maintained at a 1.25” mowing height: 1-9, where 9 is 100% established (LSD=1.1)
