

***Farmer Agreement to Collaborate with GO Seed***

I, \_\_\_\_\_ (name), agree that specified data, regardless of outcomes, will be entered in a GO Seed spreadsheet for continuity in the GO Seed Research Database. This data will include management practices, soil and climate inherent properties, and results. GO Seed will carry the right to use this data unless otherwise agreed during the collaboration process. \_\_\_\_\_ (initials)

By requesting research collaboration I agree that the management history will be maintained, samples collected as outlined in the proposal protocol, and that GO Seed will have the ability to visit the fields as needed with proper notification. \_\_\_\_\_ (initials)
