

- Bred for ruminant performance
- Increased Water Soluble Carbohydrates
- High Energy Forage
- Mid-to-late maturing

Novel solutions for growing concerns.

Drill

Broadcast

**Seeding
Rate**

**15-20lbs
per acre**

**25-30lbs
per acre**

**Planting
Depth**

<1/2 inch

Cover with soil

**Ideal
Soil**

**5.8-7.5 soil pH;
loam to heavy clay**

**Planting
Season**

Fall, spring if necessary

Key Benefits

**Ruminant
Fodder**

**Monogastric
Fodder**

**Wildlife
Food Plots**

**Hay
Suitability**

**Pasture
Suitability**

**Silage
Suitability**

**Nitrogen
Fixation**

**Drought
Tolerance**

**Frost
Tolerance**

**Flood
Tolerance**

**Very
Suitable**

**Moderately
Suitable**

**Not
Recommended**
