

MORE ROOTS

TAPIT HYBRID BRASSICA

GREATER VALUE PER ACRE

LOWER COST

ROOT ARCHITECTURE

TapIt Hybrid Brassica pushes through hardpans and sidewalls, where daikons fail.

TapIt Delivers

>2X

the functional plants
per sq/ft

SEED COMPARISON

Metric	TapIt Hybrid Brassica	Daikon Type Radish
Seeds Per Pound	138,000	36,800
Live Seeds Per Pound (PLS 83.3%)	114,954	30,645
Practical Max Plants Per sq/ft	2	1
Target Plants Per Acre	87,120	43,560
Pounds Seed Required Per Acre	0.76 lb	1.42 lb

All calculations based on 83.3% PLS (Pure Live Seed). Actual results may vary based on planting conditions, establishment, and management.

LEAF ARCHITECTURE

Daikon Type
Radish

TapIt's upright growth allows light to reach companions, where daikon's large canopy shades out other species in mixes.

TapIt Hybrid
Brassica

ADDITIONAL BENEFITS

- Superior hardpan penetration
- Survival to -9 degrees F under snow cover
- Excellent forage quality for livestock and wildlife
- Roots contain gluconasturtiin
- Proven performance from MI to FL
- Improved water infiltration
- Deeper nutrient access
- More roots per acre
- Builds organic matter and soil health
